## Institut d'enseignement en plaies, stomies et continence

### Wound Ostomy Continence Education Program (WOC-EP) Overview

Ostomy Management (160 hours) Course number woc-ep001	Continence Management (130 hours) Course number woc-ep002	Wound Management (160 hours) Course number woc-ep003
<p><b>Description:</b></p> <ul style="list-style-type: none"> <li>- 16 weeks (plus 2 weeks or 75 hours of preceptorship)</li> </ul> <p><b>Evaluation of theory:</b></p> <ul style="list-style-type: none"> <li>- Introductory assignment (5%)</li> <li>- Individual assignments (45%)</li> <li>- Discussion forums (20%)</li> <li>- Final exam (10%)</li> </ul> <p><b>Evaluation of the preceptorship:</b></p> <ul style="list-style-type: none"> <li>- Clinical Evaluation grid completed by preceptor (10%)</li> <li>- Clinical Journal – reflective practice (10%)</li> </ul> <p>The theory is worth 80% and the preceptorship is worth 20% of the final mark for the course</p>	<p><b>Description:</b></p> <ul style="list-style-type: none"> <li>- 13 weeks (plus 2 weeks or 75 hours of preceptorship)</li> </ul> <p><b>Evaluation of theory:</b></p> <ul style="list-style-type: none"> <li>Individual assignments (44%)</li> <li>Discussion forums (26%)</li> <li>- Final exam (10%)</li> </ul> <p><b>Evaluation of the preceptorship:</b></p> <ul style="list-style-type: none"> <li>- Clinical Evaluation grid completed by preceptor (10%)</li> <li>- Clinical Journal – reflective practice (10%)</li> </ul> <p>The theory is worth 80% and the preceptorship is worth 20% of the final mark for the course</p>	<p><b>Description:</b></p> <ul style="list-style-type: none"> <li>16 weeks (plus 2 weeks or 75 hours of preceptorship)</li> </ul> <p><b>Evaluation of theory:</b></p> <ul style="list-style-type: none"> <li>Individual assignments (60%)</li> <li>Discussion forums (10%)</li> <li>Final exam (10%)</li> </ul> <p><b>Evaluation of the preceptorship:</b></p> <ul style="list-style-type: none"> <li>- Clinical Evaluation grid completed by preceptor (10%)</li> <li>- Clinical Journal – reflective practice (10%)</li> </ul> <p>The theory is worth 80% and the preceptorship is worth 20% of the final mark for the course</p>

The CNA WOCC(C) exam is the final exam for the WOC-EP. The exam is to be written within one year of completing the program. Students can sign up to write the exam immediately upon completing the wound management course. The WOC-EP will provide letters of completion to facilitate writing of the exam. Students must provide proof of exam registration in order to complete the program and graduate. Graduation certificates will not be provided without proof of exam registration. Note: The WOC-EP will not request proof of passing the exam.

A CNA certification prep course has been developed and is available to students upon completion of the course if required however, it is the believe of the WOC-EP that students will be well prepared to sit the exam. The current exam pass rate is 95%.

Ostomy Management (160 hours) Course number woc-ep001	Continence Management (130 hours) Course number woc-ep002	Wound Management (160 hours) Course number woc-ep003
<b>INTRODUCTION</b>	<b>UNIT 1:</b> <i>Anatomy and Physiology of the Urinary System</i>	<b>UNIT 1:</b> <i>Physiology of Wound Healing</i>
<b>UNIT 1:</b> <i>Anatomy, Physiology, Pathophysiology and Surgical Procedures of the Gastrointestinal Tract</i>	<b>UNIT 2:</b> <i>Assessment of the Patient with Urinary Incontinence</i>	<b>UNIT 2:</b> <i>Patient Assessment</i>
<b>UNIT 2:</b> <i>Anatomy, Physiology, Pathophysiology and Surgical Procedures of the Genitourinary System</i>	<b>UNIT 3:</b> <i>Stress Urinary Incontinence</i>	<b>UNIT 3:</b> <i>Comprehensive Wound Assessment</i>
<b>UNIT 3:</b> <i>Reproductive Anatomy and Physiology and the Impact of Surgical Procedures on Sexual Function</i>	<b>UNIT 4:</b> <i>Urge Urinary Incontinence</i>	<b>UNIT 4:</b> <i>Wound Bed Preparation</i>
<b>UNIT 4:</b> <i>Preoperative Patient Assessment</i>	<b>UNIT 5:</b> <i>Acute and Chronic Urinary Retention</i>	<b>UNIT 5:</b> <i>Wound Management</i>
<b>UNIT 5:</b> <i>Skin Health</i>	<b>UNIT 6:</b> <i>Neurogenic Bladder</i>	<b>UNIT 6:</b> <i>Lower Extremity Ulcers including Lymphedema</i>
<b>UNIT 6:</b> <i>Stoma and Abdominal Assessment</i>	<b>UNIT 7:</b> <i>Lower Urinary Tract Symptoms and Functional Urinary Incontinence in Older Adults</i>	<b>UNIT 7:</b> <i>Diabetic Foot Ulcers</i>

<b>UNIT 7:</b> <i>Matching Patients with Containment Products</i>	<b>UNIT 8:</b> <i>Anatomy and Physiology of Normal Defecation and Pathophysiology of Bowel Dysfunction</i>	<b>UNIT 8:</b> <i>Oncology Wounds</i>
<b>UNIT 8:</b> <i>Providing Sexual Counselling to Postoperative Ostomy Patients</i>	<b>UNIT 9:</b> <i>Assessment of Patients with Fecal Incontinence – Bowel Dysfunction</i>	<b>UNIT 9:</b> <i>Pressure Injuries</i>
<b>UNIT 9:</b> <i>Managing GI / GU Fistulae</i>	<b>UNIT 10:</b> <i>Management of Fecal Incontinence and Bowel Dysfunction</i>	<b>UNIT 10:</b> <i>Intrinsic Diseases and Uncommon Wounds</i>
<b>UNIT 10:</b> <i>Remedying Common Misconceptions about Percutaneous Tubes</i>	<b>UNIT 11:</b> <i>Pediatric Voiding Dysfunction, Urinary Incontinence, Bowel Dysfunction and Fecal Incontinence</i>	<b>UNIT 11:</b> <i>Surgical Related Wounds</i>
<b>UNIT 11:</b> <i>Pediatric Ostomy Care</i>	-	<b>UNIT 12:</b> <i>Traumatic Wounds</i>
	-	<b>UNIT 13:</b> <i>Thermal Wounds and Frostbite</i>
